MAHEEN ARSHAD

Computer Engineer | UI/UX Designer | App Developer

✉ Maheenarshad4002@gmail.com ☎ +92 328 7678062 ➤ Islamabad, Pakistan linkedin.com/in/maheen-arshad

PROFILE

Computer Engineering student with strong skills in both hardware and software, including programming, system design, and digital electronics. Hands-on experience through academic projects in AI/IoT, full-stack systems, and embedded platforms. Passionate about building efficient, user-focused solutions across computer systems, embedded systems, and software development.

EDUCATION

IIUI, *BS Computer Engineering And Technology* 2023 – 2027 | Islamabad

WORK EXPERIENCE

Self-Employed, *Freelance Graphic Designer*

- Delivered 100+ successful projects in logo design, branding, and visual identity
- Specialised in building consistent, professional brand systems for clients

Figma Projects, *UI/UX Designer*

- Designed modern, user-centric UI/UX for mobile and web applications
- Created wireframes, interactive prototypes, and reusable design systems

Academic & Freelance, *Android & Flutter Developer*

- Built responsive, scalable, high-performance mobile applications
- Ensured seamless cross-platform user experiences

INTERNSHIPS

Renegade Furniture, *3D Modeler (Intern)* 2 Months

- Created detailed 3D models and renders of furniture pieces for design and marketing use
- Collaborated with the design team to translate concepts into accurate digital models

Android App Development Intern, *IT Board Azad Kashmir* 08/2024

- Developed mobile apps using Android Studio and Flutter with a focus on functionality and performance
- Designed and implemented user-friendly interfaces; gained hands-on experience in debugging, layouts, activities, and basicdatabase integration

UI/UX Design Intern (Figma), *IT Board Azad Kashmir*

- Designed modern mobile and web interfaces with wireframes and interactive prototypes
- Applied best practices in usability, accessibility, and responsive design; collaborated on design iterations based on user feedback

KEY PROJECTS

SIFAS – *Smart Inventory Forecasting & Analytics System*

- Full-stack solution using Python, MySQL, and Streamlit; 3-month moving average demand forecasting with interactivedashboards and automated stock alerts

AI-Enhanced IoT Flood Monitoring *System*

- ESP32 + LoRa for real-time sensor data collection and weather API integration; delivered accurate flood predictions with a 2–4day early warning system

osTicket LAMP System *Documentation*

- Created administrator/user manuals, automation workflows, and deployment guides for long-term clarity and support

UI/UX & Mobile Application *Suite*

- Designed Figma interfaces and built responsive Android Studio apps focused on usability and performance

TECHNICAL SKILLS

Python | C++ | Machine Learning | MySQL/Databases | App Development | Web Development | Raspberry Pi | Figma | Rocky Linux | MATLAB | Graphic Design | Embedded Systems | 3D Modeling
